

Las Termas de Papallacta Spa

Just an hour and a half from the hustle and bustle of Quito lies the beautiful Spa resort of Las Termas de Papallacta. Built by the banks of the brisk Papallacta river, and fed by no fewer than 9 natural thermal springs, this has become the leading Spa resort in Ecuador and is an unbelievably nice place to pamper yourself rotten!

It's not just the quality and purity of the spa waters, or that they offer almost every type of massage, aromatherapy, meditation, body wraps and saunas... No, it's that at the end of a hard day's pampering, you step out into a beautiful complex surrounded by green slopes and snow-capped mountains, breathing some of the purest air in the world. It really doesn't get much better than this!

Day One - Time to relax

This morning you will head north from Quito as you head to the luxurious Hacienda and Spa of Las Termas de Papallacta. As you sit in the hot springs, by the banks of the Papallacta river, surrounded by the peaks of the Andes, you'll wonder if it gets any better than this... then we will take you for an expert massage and you'll realise that yes - it does!

Day Two - Mountains and massages

Today is completely up to you. You can either relax by the pool or in the hot springs, you can enjoy the various massages and spa treatments, or you could head out into the surrounding mountains for a short trek with the hacienda's expert guides.

Day Three - Back to Quito

After another morning here at the Spa, where as well as relaxing you can enjoy some of the superb nature trails in the area, we will pick you up and take you back to Quito, hopefully thoroughly relaxed and ready for the rest of your Ecuador holiday!

A stay at Las Termas de Papallacta can be added on to any of our holidays in Ecuador and you can stay for as long as you like!

Our price for the sample itinerary given here is **£350 per person**. This price is based on two people sharing a double or twin room and includes all the following:

- Two nights accommodation at Las Termas de Papallacta
